

BARRINGTON

Turf Type Tall Fescue

BARRINGTON turf type tall fescue is a selection from Barenbrug USA research program. **BARRINGTON** shows excellent performance throughout the transition zone where turf type tall fescue dominates. Heat and drought tolerance are two of **BARRINGTON**'s major strengths. Dark green color is sure to impress the critics and please the users of this outstanding fescue variety.

BARRINGTON is ideal for adding to mixtures and blends where its dark color and durability will improve the overall quality of the turf wherever it is grown.

Characteristics

- Very dark green
- Excellent performance in transition zone
- Medium fine leaf texture blends well with fescue and bluegrass
- Good drought and heat tolerance
- Pest and disease resistant

Seeding Rates

8-12 lbs. per 1,000 square feet

300-400 lbs. per acre

Mowing Height

Performs best at 1½ to 2½ inches. Will tolerate mowing to ¾ inch.

Do not remove more than 1/3 of total plant height with each mowing.
