### Changing the Way the World Views Annual Ryegrass

When it comes to quality durable turf, can an annual ryegrass really compete with a perennial ryegrass? It can when the annual ryegrass is Panterra, the turf type annual ryegrass that's setting new quality benchmarks.

Panterra is the leader of a new breed of annual ryegrass varieties developed to offer professional turf grass managers new solutions in creating healthy, durable turf.

- Outstanding dwarf growth characteristics for reduced mowing.
- Fine leaf texture and very high shoot density.
- Highly wear tolerant, ideal for sports fields and golf courses.
- In warm southern climates, transitions-out quickly.
- Cold hardiness allows green turf all winter long.
- Developed by Texas A&M University specifically for quality turf.

If your goal is quality turf, see for yourself why Panterra turf type annual ryegrass is redefining the way turf managers look at annual ryegrass.
